

Sample Travel Letter From Treating Doctor

To Whom It May Concern:

RE: *(Patient's name)*

This patient has a bleeding disorder called _____ indicating a deficiency (and/or malfunction) of factor _____. S/he is well known to me. If internal or external bleeding occurs, the patient responds well to early self-infused transfusions of anti-hemophilic factor plasma-derived or recombinant concentrates. _____'s *(patient's name)* judgment as to when these products should be used and as to the quantity may be relied upon.

Yours truly,

*(Doctor's signature
name, position)*
